Quarter 3, 2006

Diamond Coach

Diamond Coach Corporation has been an established business for nearly 50 years, evolving from a company called "Coons Custom Manufacturing" that built custom campers back in 1957. In 1989, current owners Dick Seybolt and Wayne Lowe decided to build buses using the same award-winning fiberglass/honeycomb

composite process that made their campers unique. Today, this unique honeycomb composite process has set the industry standard.

Currently Diamond Coach employs approximately 50 people where one-third of the "Diamond family" has been employed for ten years or more. Diamond's continuous improvement process has generated more than 1100 employee suggested product improvements in the last three years.

Diamond Coach Corporation is located in Oswego, Kansas, but as a nationwide dealer network, their buses are produced for customers in the United States, Canada, and overseas. For current models and options visit their website at <http://www.diamondcoach.com>.

Featured Model

VIP 3201 Series Bus

About a year ago, with the help of their dealer network, Diamond Coach began the design process for building on a 32' International chassis. This unit was "unveiled" at the Dealer Council Meeting on Grand Lake in July 2006.
